Protective Security Operations Course

This course equips Tactical officers with essential practical skills to excel in protective security services. Students will apply theoretical knowledge and gain valuable experience through simulated real-life scenarios and hands-on sessions. Drawing from methodologies of the U.S. Secret Service and U.S. Department of State’s Bureau of Diplomatic Security Service, the intensive 5-day program covers Protective Operations, Formations and Tactics, Motorcade Operations, Attack on Principal Drills, Defensive Driving, Advanced Operations, and Protective Agent Course of Fire Drills. Graduates will emerge fully prepared to effectively apply their skills and knowledge in real-world protective security missions, whether in a primary or support role.
